Midmark Corporation (Versailles, OH): E-Marketing Intern

May 2013 to present

Worked on several web development projects ranging in size. Projects include:

- Creating an HTML5 version of the old Flash color selectors, including making them work on iPads
- Making an offline version of midmarkclinicalsolutions.com for the sales representatives' iPads and tablet PCs
- Creating HTML5 versions of three Flash banners at midmarkanimalhealth.com
- Making various content edits to the corporate website, midmark.com

Versailles Athletic Department (Versailles, OH): Electronic Track Timer

March 2011 to May 2013

Set up and ran the electronic timing system at home track meets. Duties:

- Detecting the flash from the starter's gun using a flash sensor
- Capturing each race on video on the computer
- Analyzing each race to determine the finish time of each runner
- Importing the timing data from each race into the meet manager software and resolving any issues or discrepancies with the timing results
- Typing the scores from each of the field events into the meet manager software

Plyhammer's Parts, LLC (Versailles, OH): Webmaster, Web Developer

February 2011 to present

Built, set up, and currently maintain an online store (plyhammersparts.biz) for a local client who sells Porsche parts. Set up and manage social media profiles such as Facebook, Twitter, YouTube, and Google+ for the company.
